Name: Jon Adams

Age: 46

Occupation: Electrical Engineer

Intrest: Physics, Space, Sci-fi/star wars, hiking and his family

Status: Married with two kids

Jon is a busy man, with a full time job and family responsibilities he has limited time for browsing the web. But in his younger years he was very interested in Space and self-educated himself about the moon landing. He is aware of what SpaceX is doing, but isn't following it activly. But he has always had a soft spot for NASA, and would like to know what they are doing these days.

He wished he had more time to learn about NASA's new missions and whats going on in regards to space exploration. He would like to find information about a new space missions that takes place in the near future, where all the information is displayed neatly on one site.
